AMERICAN ZOOLOGIST VOLUME 18

CONTENTS

No. 1 WINTER 1978

PRESIDENTIAL ADDRESS

CARL GANS	All animals are interesting!	3

CELLULAR ADHESION

STEVEN B. OPPENHEIMER	Introduction to the symposium: Cellular adhesion	11
STEVEN B. OPPENHEIMER	Cell surface carbohydrates in adhesion and migration	13
EDWARD G. POLLOCK	Fine structural analysis of animal cell surfaces: Membranes and cell surface topography	25
GARTH L. NICOLSON	Cell and tissue interactions leading to malignant tumor spread (metastasis)	71
HERBERT M. PHILLIPS AND GRAYSON S. DAVIS	Liquid tissue mechanics in amphibian gastrulation: Germ-layer assembly in *Rana pipiens*	81

SKELETAL MUSCLE TISSUE

G. E. GOSLOW, JR.	Introduction to the symposium: Skeletal muscle tissue	97
E. RAWORTH ALLEN	Development of vertebrate skeletal muscle	101
V. REGGIE EDGERTON	Mammalian muscle fiber types and their adaptability	113
R. E. BURKE	Motor units: Physiological/histochemical profiles, neural connectivity and functional specializations	127
BARRY R. BOTTERMAN, MARC D. BINDER, AND DOUGLAS G. STUART	Functional anatomy of the association between motor units and muscle receptors	135
C. RICHARD TAYLOR	Why change gaits? Recruitment of muscles and muscle fibers as a function of speed and gait	153
CARL GANS	Concluding remarks	163

RESOURCES IN INVERTEBRATE SYSTEMATICS

	Committee report	167

No. 2 SPRING 1978

DEVELOPMENTAL GENETICS OF THE MEXICAN AXOLOTL

GEORGE M. MALACINSKI	Introduction to the symposium: Developmental genetics of the Mexican axolotl	189
GEORGE M. MALACINSKI	Dedication to R. R. Humphrey	191
GEORGE M. MALACINSKI	The Mexican axolotl, *Ambystoma mexicanum:* Its biology and developmental genetics, and its autonomous cell-lethal genes	195
RUFUS R. HUMPHREY	Phenotypes recognizable in the progeny of axolotl parents both heterozygous for the same two mutant genes	207
LAURENCE D. ETKIN	Approaches to problems of gene regulation and cell type determination in amphibians	215
JOHN H. SINCLAIR, CAROLE R. CARROLL, AND GEORGE M. MALACINSKI	Composition and behavior of the nucleolar organizer of the nucleolar variant of axolotls; review and comparison to other systems	225
ELIZABETH C. RAFF AND RUDOLF A. RAFF	Tubulin and microtubules in the early development of the axolotl and other Amphibia	237
PAT G. MODEL	Aspects of Mauthner cell differentiation in the axolotl, *Ambystoma mexicanum*	253
LEONARD G. EPP	A review of the eyeless mutant in the Mexican axolotl	267
RUDOLF BERNHARD BRUN	Experimental analysis of the eyeless mutant in the Mexican axolotl *(Ambystoma mexicanum)*	273
CHARLES IDE	Genetic dissection of cerebellar development: Mutations affecting cell position	281
LOUIS E. DELANNEY	Immunogenetic profile of the axolotl: 1977	289
JOSEPH T. BAGNARA, SALLY K. FROST, AND JIRO MATSUMOTO	On the development of pigment patterns in amphibians	301
ROBERT TOMPKINS	Genic control of axolotl metamorphosis	313

J. T. Justus — The cardiac mutant: An overview 321
Larry F. Lemanski — Morphological, biochemical and immunohistochemical studies on heart development in cardiac mutant axolotls, *Ambystoma mexicanum* . 327
Robert R. Kulikowski and Francis J. Manasek — The cardiac lethal mutant of *Ambystoma mexicanum:* A re-examination 349
John B. Armstrong and Maria Fernanda Ortiz — Alkylation treatment of the Mexican axolotl: An approach to the isolation of new mutations ... 359

Advice to Authors 369

BRAIN-HORMONE INTERACTIONS

Gloria V. Callard — Introduction to the symposium: Brain hormone interactions 383
Ivor M. D. Jackson — Phylogenetic distribution and function of the hypophysiotropic hormone of the hypothalamus 385
H. J. Th. Goos — Hypophysiotropic centers in the brain of amphibians and fish 401
Joe William Crim, Walton W. Dickhoff, and Aubrey Gorbman — Comparative endocrinology of piscine hypothalamic hypophysiotropic peptides: Distribution and activity 411
Ye Soon Kim, Walter E. Stumpf, Madhabananda Sar, and Maria Christine Martinez-Vargas — Estrogen and androgen target cells in the brain of fishes, reptiles and birds: Phylogeny and ontogeny 425

Walter E. Stumpf and Madhabananda Sar	Anatomical distribution of estrogen, androgen, progestin, corticosteroid and thyroid hormone target sites in the brain of mammals: Phylogeny and ontogeny	435
Joan I. Morrell and Donald W. Pfaff	A neuroendocrine approach to brain function: Localization of sex steroid concentrating cells in vertebrate brains	447
Barbara B. Turner	Ontogeny of glucocorticoid binding in rodent brain	461
Darcy B. Kelley	Neuroanatomical correlates of hormone sensitive behaviors in frogs and birds	477
James T. Martin	Embryonic pituitary adrenal axis, behavior development and domestication in birds	489
Elizabeth Kocher Adkins	Sex steroids and the differentiation of avian reproductive behavior	501
Gloria V. Callard, Zoltan Petro, and Kenneth J. Ryan	Conversion of androgen to estrogen and other steroids in the vertebrate brain	511
Thomas O. Fox, Christine C. Vito, and Steven J. Wieland	Estrogen and androgen receptor proteins in embryonic and neonatal brain: Hypotheses for roles in sexual differentiation and behavior	525
Ivan Lieberburg, Neil J. MacLusky, Edward J. Roy, and Bruce S. McEwen	Sex steroid receptors in the perinatal rat brain	539
Singaram Naidoo, Theony Valcana, and Paola S. Timiras	Thyroid hormone receptors in the developing rat brain	545
C. Dominique Toran-Allerand	Gonadal hormones and brain development: Cellular aspects of sexual differentiation	553
Robert D. Lisk	Concluding remarks	567

No. 4 FALL 1978

ECOLOGY AND BEHAVIOR OF NECTAR-FEEDING BIRDS

LARRY L. WOLF AND F. REED HAINSWORTH	Introduction to the symposium: Ecology and behavior of nectar-feeding birds	683
JAMES H. BROWN, WILLIAM A. CALDER, AND ASTRID KODRIC-BROWN	Correlates and consequences of body size in nectar-feeding birds	687
F. REED HAINSWORTH	Feeding: Models of costs and benefits in energy regulation	701
F. GARY STILES	Ecological and evolutionary implications of bird pollination	715
CLIFTON LEE GASS	Experimental studies of foraging in complex laboratory environments	729
GRAHAM H. PYKE	Optimal foraging in hummingbirds: Testing the marginal value theorem	739
FRANK B. GILL	Proximate costs of competition for nectar	753
LARRY L. WOLF	Aggressive social organization in nectarivorous birds	765
PETER FEINSINGER AND ROBERT K. COLWELL	Community organization among neotropical nectar-feeding birds	779
STUART L. PIMM	An experimental approach to the effects of predictability on community structure	797
F. LYNN CARPENTER	A spectrum of nectar-eater communities	809

CONTROL MECHANISMS IN REGENERATION

RICHARD J. GOSS AND BRUCE M. CARLSON	Introduction to the symposium: Control mechanisms in regeneration	823
RICHARD A. LIVERSAGE	Oscar E. Schotté	825
MARCUS SINGER	On the nature of the neurotrophic phenomenon in urodele limb regeneration	829
ROY A. TASSAVA AND WILLIE D. MCCULLOUGH	Neural control of cell cycle events in regenerating salamander limbs	843
MORTON GLOBUS	Neurotrophic contribution to a proposed tripartite control of the mitotic cycle in the regeneration blastema of the newt, *Notophthalmus (Triturus) viridescens*	855
BRUCE M. CARLSON	Types of morphogenetic phenomena in vertebrate regenerating systems	869
DAVID L. STOCUM	Organization of the morphogenetic field in regenerating amphibian limbs	883

Index to Volume 18 897

INDEX TO VOLUME 18

This index covers only the major papers, their authors, and principal headings. It does not include the abstracts. For the latter there are separate indices to authors on pages 677 through 680. Minutes of business meetings, officers, and reports are entered only under *American Society of Zoologists*.

Abstracts, see note above.
  Index of authors, annual meeting, Richmond, Virginia, 677-680.
  Of annual meeting, Richmond, Virginia, 570-676.
Adhesion, cellular, 11-93.
AKDINS, ELIZABETH KOCHER, Sex steroids and the differentiation of avian reproductive behavior, 501-509.
ALLEN, E. RAWORTH, Development of vertebrate skeletal muscle, 101-111.
Advice to authors, 375-378.
American Society of Zoologists,
  Committees, iii.
  Divisional officers, iv.
  Financial statement, xii-xiii.
  Minutes of annual business meeting, vi-viii.
  Officers for 1978, iii.
American Zoologist,
  Advice to authors, 375-378.
  Directions for authors, cover 1.
  Editorial board, cover 1.
  Statement of ownership, vi.
  Subscriptions, cover 1.
ARMSTRONG, JOHN B. AND MARIA FERNANDA ORTIZ, Alkylation treatment of the Mexican axolotl: An approach to the isolation of new mutations, 359-368.
BAGNARA, JOSEPH T., SALLY K. FROST, AND JIRO MATSUMOTO, On the development of pigment patterns in amphibians, 301-312.
BINDER, MARC D., see BOTTERMAN, BARRY R.
BOTTERMAN, BARRY R., MARC D. BINDER, AND DOUGLAS G. STUART, Functional anatomy of the association between motor units and muscle receptors, 135-152.
BRAIN-HORMONE INTERACTIONS, 381-568.
  Androgen conversions in brain, 511-523.
  Avian psychosexual differentiation, 501-509.
  Distribution of hypothalamic hormones, 385-399.
  Glucocorticoid binding in brain, 461-475.
  Gonadal hormones and brain development: Cellular aspects of sexual differentiation, 553-565.
  Hormones, behavior and domestication, 489-499.
  Hypophysiotropic centers in amphibians and fish, 401-410.
  Neural substrates for sex behaviors, 477-488.
  Piscine hypophysiotropic peptides, 411-424.
  Sex steroid binding in baby rat brain, 539-544.
  Sex steroid concentrating cells in brain, 447-460.
  Steroid hormones in mammalian brain, 435-445.
  Steroid hormones in nonmammalian brain, 425-433.
  Steroid receptors in brain development, 525-537.
  Thyroid hormone receptors in brain, 545-552.
